

Management at GERMAN NAVAL YARDS KIEL strengthened with Rino Brugge

As of 18.06.2021, Rino Brugge will strengthen the management of the Kiel shipyard.

With Brugge, born in 1975, an internationally experienced manager comes on board at GERMAN NAVAL YARDS KIEL (GNYK). As a trained mechanical and industrial engineer, he was responsible for the construction of three frigates for the Moroccan Navy, among other projects. Management experience in Qatar and Singapore are proof of his internationality. Most recently, he was Managing Director of DAMEN SHIPPYARDS GALATI, one of the largest shipyards within the Damen Group.

"I am pleased that with Rino Brugge we have been able to gain an internationally experienced expert who will be a valuable support for our future challenges," says Jörg Herwig, Managing Director and CEO of the company.
